

2019 Earth Day Mansfield Rain Barrel Painting Contest

The Keep Mansfield Beautiful Commission invites artists to submit applications to have their artwork featured on rain barrels at the 2019 Earth Day Mansfield festival held April 27. Each selected artist will transform a rain barrel into a work of art to celebrate Earth Day 2019 and draw attention to the benefits of using rain barrels to conserve water, slow runoff and protect storm water in Mansfield.

Artists will be provided with a 55-gallon, fully-assembled plastic rain barrel and a \$25 gift card for painting supplies. Artists will be chosen based on their creative design and application form responses.

All chosen barrel artists will be featured on the Keep Mansfield Beautiful Facebook page.

The painted barrel on display during Earth Day will be sold in a silent auction. All proceeds will benefit future Keep Mansfield Beautiful projects. The grand prize winner will be determined by highest bid received during the festival.

2019 Earth Day Mansfield Rain Barrel Painting Contest - Artist Application

Name(s): _____

Please read rules before submitting your application.

2019 Earth Day Mansfield Rain Barrel Painting Contest – Rules

Participating artists must be willing to donate their time, creativity and painting supplies in excess of the \$25 stipend provided. In return, the Keep Mansfield Beautiful Commission will provide a fully-assembled rain barrel, \$25 gift card for painting supplies, free publicity, display location and artist recognition at the festival.

- Artist applications must be received by March 15, 2019.
- Artwork does not have to have an environmental theme; however it must avoid designs of a political, religious or sexual nature.
- Each artist is limited to one barrel. Teachers may have one barrel per class. Artists must pick up barrels at the Chris W. Burkett Service Center 620 S. Wisteria St. Mansfield and return to the same location.
- Any stickers or objects attached to the barrel is prohibited.
- To help you plan your design, the spigot serves as the front of the barrel.
- The barrel must be returned with all hardware in place.
- Barrels must be painted with acrylic paint and top coated with a clear finish.
