

GAS WELL DRILLING ACTIVITY REPORT

For the week of August 14, 2017

Case Number	Address	Pad ID#	Operator/Pad Name	Activity	Status
GW#13-003	1865 Callender Rd.	4 and 5	Eagleridge Woodland Estates	Workover activities will be intermittent between now and June, 2017. There are currently four temporary lift compressors onsite. Additional sound protection has been installed around the compressors. A 24 hour sound monitor station has been installed adjacent to the park to monitor sound levels until June 2017.	In progress
GW#07-005	1201 Herriage Pkwy	21	XTO Flowers	Plug and Abandonment of three gas wells	Beginning week of Aug 14th.

The status of Gas Well Permits, Pipeline Permits and drilling ordinance amendments may be found on the Application Status Report at https://www.mansfieldtexas.gov/sites/default/files/media/application_status.pdf

For gas well emergencies, dial 9-1-1.

Please contact the Gas Well Inspector at 817-276-4254 or david.nicholson@mansfield-tx.gov for general inquiries and concerns related to gas wells or provisions of the City's drilling regulations. For other concerns, the Railroad Commission of Texas (RRC) has jurisdiction over well permitting and inspections, and the Texas Commission on Environmental Quality (TCEQ) has jurisdiction over environmental concerns. Please contact the RRC at www.rrc.state.tx.us or 512-463-7288. TCEQ created a Barnett Shale webpage (<http://www.tceq.texas.gov/airquality/barnettshale/bshale-main>) and accepts environmental complaints by calling 1-888-777-3186 or online at <http://www.tceq.texas.gov/compliance/complaints/index.html>.
